

## How to use your member QR code

---

This guide will show you how to use your QR code to share contact info

### Member QR Codes

A unique member QR code is connected to your account when you sign up on the platform.

This QR code allows you to share your contact info seamlessly at the event or on the go.

To access, click the **Share QR** tab on your member profile and scan with any smartphone camera.

The person scanning the code will click **+Add to Contacts** to add your information to phone contacts.
